EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

On page 4, line 25: delete "14" and substitute --16--, delete "16" and substitute --14--.

On page 5, line 27: delete "12" (first occurrence) and substitute --46--.

In claim 4:

Line 21: delete "neck" and substitute --container--.

In the drawings:

Amend the drawings as indicated in red ink on the attached sheet.

Claims 1-4 are allowed. It is noted that the amendment to the specification was needed to correct minor informalities. Further, the amendment to claim 4 was needed since there was no antecedent basis for "said neck" (this claim was amended to read similarly to claim 1, which also claims a coupler, but not a neck) and Figure 3 was amended so that it is consistent with Figure 2, i.e, pump 34 should be visible in Figure 3. It is lastly noted that all of the references cited in the IDS filed 11/12/03 have been

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
